

PADETC Consultants

A PADETC social enterprise

PADETC Consultants is a group of professionals with wide ranging experience who work under the values of PADETC. They include current and former PADETC staff as well as people who have worked together with PADETC in various capacities.

PADETC Consultants can provide expertise in a wide range of areas including:

- Holistic education, teacher training and learning tools
- Youth leadership
- Water and sanitation
- Community participatory development, including land-use planning
- Biodiversity and climate change education and awareness
- Strategic planning and organizational development
- Fundraising and proposal writing
- Communications and graphic design
- Project management
- Finance and Human Resources

By working with a PADETC Consultant you are helping to support the local education for sustainable development work of PADETC.

You can also feel assured that the consultant will be professional, an expert in their field, and work within the PADETC values of sustainable participatory community development.

For more information or to discuss working with a PADETC Consultant please contact the PADETC Consultants Manager:
